

## RFP- Website Redesign and ADA Compliance

### Addendum #6\_12.11.2025

Please provide the number of public facing documents (meeting agendas, minutes, reports, forms) that need to be remediated. **OHPA anticipates generating fewer than ten documents per month. Older documents will be archived on an external cloud-based platform and made available in response to public records requests.**

We see similar RFPs with budgets ranging from \$25K to six figures. Where in that range are you expecting to fall? **Less than \$25K**

Please quantify the amount of content that will be migrated. (number of pages, files, etc.) **OHPA intends to streamline and simplify its website content, limiting the site to two pages.**

Does the site search need to index the contents of pdf / Doc files? **Yes**

Please describe all third-party systems that integrate with the website via an API or an automated data import/export. **None**

Will single sign-on be used to control administrative access to the site? If yes, please elaborate. **For security purposes, the Administrative Office Manager will maintain the site and remain the sole authorized administrative access sign-in.**

Please provide average monthly and peak page views over the last year. **Low traffic.**

We are a US company with employees outside the US. Is there any limitation on their ability to work on the project? **Please find attached the General Terms and Conditions, as required by Florida State Law for contracts with an independent Special District such as OHPA. Vendors are responsible for reviewing the Florida Statutes referenced in OHPA's General Terms and Conditions to ensure that the use of labor outside the United States complies with Florida law.**
